

Intern/Engineer/postdoc positions in Molecular Biology/Bioinformatics Covid-19 diagnostic research collaboration with 4Catalyzer/Homodeus (F/H)

POSTE À POURVOIR Starting date : a soon as possible LOCALISATION DU POSTE 10 RUE VAUQUELIN 75005 PARIS
ÉTABLISSEMENT ESPCI Paris - PSL

ENVIRONNEMENT ET CONTEXTE DE TRAVAIL

Notre établissement fait partie de l'Université PSL. Située au cœur de Paris, celle-ci fait dialoguer tous les domaines du savoir, de l'innovation et de la création. Classée parmi les 50 premières universités mondiales, elle forme au plus près de la recherche des chercheurs, artistes, ingénieurs, entrepreneurs ou dirigeants conscients de leur responsabilité sociale, individuelle et collective.

STRUCTURE D'ACCUEIL

ESPCI Paris PSL

ESPCI Paris PSL is a major institution of higher education (a French "Grande École d'ingénieurs"), an internationally renowned research center (6 Nobel Prizes), and a fertile ground for innovation, with several start-ups founded each year. ESPCI is a highly multidisciplinary environment with teaching and research in physics, chemistry and biology.

MISSION D'ENSEIGNEMENT

MISSION DE RECHERCHE

CBI-TEAM OF BIOCHEMISTRY PROF.ANDREW GRIFFITHS

Covid-19 diagnostic project

The COVID-19 pandemic is a once-in-a-century global crisis. Widespread, frequent testing is the key to getting the world back on its feet. Current COVID-19 testing options are expensive, slow, and uncomfortable.

In collaboration with Homodeus Inc. (a 4Catalyzer company, founded by Jonathan Rothberg, the pioneer of next-generation sequencing), our goal is to develop an accurate, affordable, and simple testing that can be done anywhere – from the point of care to the home. We aim to make testing available to everyone around the world, for COVID-19 today and any pathogen tomorrow.

Prof. GRIFFITHS Andrew job-lbc@espci.fr

COMPÉTENCES ATTENDUES

Requirements

We are seeking highly motivated Interns, Engineers and Post-Docs to work on Covid-19 diagnostic test development. Requirements are experience in molecular biology or related fields, and/or experience in bioinformatics, and/or experience in microfluidics/microfabrication.

Flexibility, autonomy, the ability to work in a highly multidisciplinary team and good interpersonal skills are essential.

NON DISCRIMINATION, OUVERTURE ET TRANSPARENCE

Notre établissement, comme l'ensemble de l'Université PSL, s'engage à soutenir et promouvoir l'égalité, la diversité et l'inclusion au sein de ses communautés. Nous encourageons les candidatures issues de profils variés, que nous veillerons à sélectionner via un processus de recrutement ouvert et transparent.
