

ENVIRONNEMENT ET CONTEXTE DE TRAVAIL

Notre établissement fait partie de l'Université PSL. Située au cœur de Paris, celle-ci fait dialoguer tous les domaines du savoir, de l'innovation et de la création. Classée parmi les 50 premières universités mondiales, elle forme au plus près de la recherche des chercheurs, artistes, ingénieurs, entrepreneurs ou dirigeants conscients de leur responsabilité sociale, individuelle et collective.

STRUCTURE D'ACCUEIL

The Curie Institute Research Center

The Institut Curie is a major player in the research and fight against cancer. It consists of a hospital and a Research Center of more than 1000 employees with a strong international representativeness.

The objective of the Curie Institute Research Center is to develop basic research and to use the knowledge produced to improve the diagnosis, prognosis, and therapeutics of cancers as part of the continuum between basic research and innovation serving the patient.

MISSIONS

ACTIVITÉS PRINCIPALES

Laboratory

The Basto Lab (<https://curie.fr/equipe/basto>) investigates the fundamental mechanisms that ensure accurate cell division and tissue homeostasis, and how their disruption contributes to disease. Our research combines cell biology, genetics, developmental biology, advanced microscopy, and quantitative approaches to understand how centrosomes, the cytoskeleton, and cell division are regulated across different biological contexts. We use a multidisciplinary approach and a diverse range of experimental models, including cultured mammalian cells, *Drosophila melanogaster*, and mouse models, allowing us to address biological questions from molecules to whole organisms. The laboratory is part of Institut Curie, an internationally recognized research center at the forefront of cancer, cell, and developmental biology, offering access to outstanding core facilities.

Missions

We are seeking an experienced and highly organized Laboratory Manager to join our team. The successful candidate will play a central role in ensuring the smooth operation of the laboratory while actively contributing to ongoing research projects. This is an ideal position for someone who enjoys combining hands-on experimental work with laboratory management in a collaborative and dynamic research environment.

We offer the opportunity to work in an internationally recognized research institute with access to state-of-the-art facilities and a stimulating scientific environment. The successful candidate will become an integral member of a collaborative team committed to addressing fundamental questions in cell and developmental biology.

PROFIL DU CANDIDAT

SAVOIRS ET COMPÉTENCES ATTENDUS

We are looking for a proactive and motivated scientist with excellent organizational skills and laboratory experience.

- Degree (BSc, MSc, or equivalent) in Cell Biology, Molecular Biology, Biomedical Sciences, or a related discipline.
- Experience in an academic or biomedical research environment.
- Strong experience in mammalian cell culture and cell biology techniques.
- Excellent organizational and communication skills.
- Ability to work independently while supporting a multidisciplinary research team.
- Fluency in English (written and spoken)

All our opportunities are open to people with disabilities

Contract information

Type of contract: Full-time permanent position (CDI)

Starting date: October 2026

Working time: 39h

Remuneration: Salary range from 28510.59€ to 29240.67€/year with potential adjustments based on the candidate's profile and internal compensation guidelines.

Benefits: Collective catering, reimbursement of transportation fees up to 70%, supplementary health insurance

Location of the position: Paris

Contact

Please send your CV, letter of motivation and 2 reference contacts

Publication date: 06/07/2026

Deadline for application: 01/09/2026

***Institut Curie is an inclusive, equal opportunity employer
and is dedicated to the highest standards of research integrity.***
