

ENVIRONNEMENT ET CONTEXTE DE TRAVAIL

Notre établissement fait partie de l'Université PSL. Située au cœur de Paris, celle-ci fait dialoguer tous les domaines du savoir, de l'innovation et de la création. Classée parmi les 50 premières universités mondiales, elle forme au plus près de la recherche des chercheurs, artistes, ingénieurs, entrepreneurs ou dirigeants conscients de leur responsabilité sociale, individuelle et collective.

STRUCTURE D'ACCUEIL

The Institut Curie Research Center

Institut Curie is a major player in the research and fight against cancer. It consists of a Hospital Group and a Research Center of more than 1000 employees with a strong international representativeness.

The objective of the Research Center is to develop basic research and to use the knowledge produced to improve the diagnosis, prognosis, and therapeutics of cancers as part of the continuum between basic research and innovation serving the patient.

MISSIONS

ACTIVITÉS PRINCIPALES

Laboratory

Dr Eliane Piaggio's research group (Inserm U932, Paris, France, <https://institut-curie.org/team/piaggio>) is part of an immunology department of 130 people headed by Dr Ana-Maria Lennon. The laboratory is located on the Institut Curie campus in central Paris. The building is equipped with state-of-the-art facilities (imaging, proteomics, animal facilities, genomic and cytometric platforms). The Institute is home to some 1,500 scientists, including many foreign students and post-docs.

The team comprises 13 members, including two bioinformaticians and a project manager.

Missions

The post-doctoral fellow's mission will be to achieve a project in translational immunology research related to the involvement of T regulatory lymphocytes in cancer. The candidate will be responsible for the development, handling and analysis of experiments, and for monitoring the bibliography. Projects will be developed under the supervision of Dr Eliane Piaggio. of cancers as part of the continuum between basic research and innovation serving the patient.

PROFIL DU CANDIDAT

SAVOIRS ET COMPÉTENCES ATTENDUS

Training and experience required

- PhD in immunology
- Scientific publications attesting to successful completion of previous projects.
- Required expertise in the Treg field.
- Knowledge and former experience in cancer immunology would be an asset.

Skills required

- Expert in multiparametric FACS.
- Experience in bioinformatics (RNASeq bulk or single cell analysis) would be an asset
- Strong motivation, autonomy and excellent ability to work as part of a team.
- A high level of integrity, accuracy and rigor are essential.
- Proficiency in English is mandatory.

All our opportunities are open to people with disabilities

Contract information

Type of contract: *Fixed-term object-derived contract (COD)*

Starting date: December 1st 2026

Duration: 3 years

Working time: *full time*

Remuneration: according to the current

Benefits: Collective catering, reimbursement of transportation fees up to 70%, supplementary health insurance

Location of the position: *Paris*

Contact

Please send your CV and letter of motivation

Publication date: 27/07/2026

Deadline for application: November 30th 2026

***Institut Curie is an inclusive, equal opportunity employer
and is dedicated to the highest standards of research integrity.***
